

Parking around St. Gregorys

A site survey has recently been carried out by Sandwell MBC - Highways, to observe the parking on the yellow school zig zag lines at the school entrance on Park Road.

A number of parents are using this area to park whilst they drop off and pick up their children from the school. The area is clearly marked out and signed 'No Stopping' and parking on this area creates a hazard and increases the risk of injury to our children.

Sandwell Council will shortly be introducing a CCTV vehicle, with a view to carry out robust enforcement outside our school in order to keep our children safe. The CCTV will detect vehicle registration numbers of any vehicle parked in contravention and a penalty charge notice will be issued automatically.

Please park considerately around the school and protect our children!
